Automatic Screen Printing Machine

Automatic screen printing machine is applicable to print patterns on the surface of cylinders and oval cylindrical bottles. The colors can be either assorted or fixed by connecting a number of machines or separating machines to print so as to meet different customers' needs to the most extent. The updated transmission design features being more stable, easier to switch to bottles of different shapes, and more flexible. Besides, its favorable price ratio will drive the product to be used by more and more small and medium-sized enterprises.

Machine Parameters:

Printing Speed Round: 4000pcs / hr Oval 5000pcs / hr

Printing Size: Round Diameter 20-100mm Length 25-270mm

Printing Length: Oval Width 25-120mm Length 25-270mm

Compressed Air: 0.6MPa

Lp Gas:0.15MPa

Dimension Unit: 1907×1000×1500mm

Power Unit 380VAC, 3-PHASE, Unit 6.5KVA

Test Table 220VAC, 1-PHASE, 0.2KVA

Packing Size:206*123*192CM

Gross weight:800KG

Net Weight:700KG

Automatic bottle scramblers(loaders system) Pack Size: 181*161*160CM

Features :

- 1.It is suitable to print on various shades of cylindrical, elliptical and falt workpieces;
- 2.Coupled with auto workpiece feeding and loading system;
- 3.Flame treatment device adopted for re-treatment on PE or PP workpieces to get ultimate ink adhesion;
- 4.The function of workpiece placing in advance is built-in aiming on cylindrical or elliptical printing;
- 5.Electric sensor creates "no workpiece no printing" that leads to intelllgent monitor and smart control;
- 6.High quality curing system adopted to ensure fast ink drying and color registration;
- 7.High printing speed that up to 4000pcs/hr will bring you with high productivity;
- 8.Conveniently and easily fixture adjustment and change that save your valuable time;
- 9.Multi-sets of this machine can achieve 2-color, 3-color and even 4-color auto printing system.
