

## Fever Cooling Gel Patch Packaging Machine

### **Model:PPD-FGCP**

Fever Cooling Gel Patch Packaging Machine is ideal for producing Fever cooling gel patch,cooling gel paste pad etc.

Include Epoxy Resin Cooling Gel coating forming cutting machine,cooling gel patch 4 side seal packaging machine.

The machine is very simple for operation,it is user friendly.

The production procedure:

Epoxy resin maxing-put to coating-forming-cutting the cooling gel pad-load in the conveyer-load in packet-forming packet-seling the packet-cutting the ready product packet-delivery

Main Specification:

Machine Model:PPD-FGCP

Product: 120x40-50mm,110x40-50mm,100x70mm,90x40mm Etc (customized)

Non woven roll width:Max500mm

Non woven roll ID:3inch

Coating width:500mm

Coating ability:120-250pcs/min

Machine Dimension: 2600x1100x1800mm(LxWxH)  
Packing size:2200x1400x1600mm(LxWxH)  
Bag size:120-180x80-125mm(LxW)  
Processing ability:80-120pcs/min  
Packing material: Paper,Aluminium Foil,Plastic ,Film composite material  
Packing film diameter max 350mm  
Packing film width max550mm  
Volt: 220V 50&60Hz  
Power: Motor: 2.2Kw,Heated:3.3Kw  
Weight: 1150Kg  
Machine Dimension 4000x1300x1600mm(LxWxH)  
Packing size:2600x1900x1800mm(LxWxH)
